LabSci tabletop autoclaves

LabSci 11L-28 Liter ■ LabSci 15L-65 Liter ■ LabSci-15+L -85 Liter

2 Year warranty | Free internal printer

Designed to autoclave everything in your lab, including liquids.

- No water utility connections needed, just plug in and add water.
- Two integrated temperature probes for complete sterilization of liquids
- Four validated cycles (glass, plastic, liquid A and liquid B-waste).
- Stores up to 200 past cycles you can open on your PC
- Create up to 16 custom cycles
- Trays Included

Options that are available on all "LabSci" models include: Warming (95° to 104°C), Isothermal (80° to 94°C) F₀, 21 CFR with R.P.C.R software

LabSci 60LV, 60 Liters

LabSci 85LV, 85 Liters

Designed to autoclave everything in your lab, including liquids.

LabSci 60LV and LabSci85LV were developed especially for educational institutions and research facilities. Designed with simplicity and economy in mind.

These vertical floor-standing autoclaves cover the fundamental needs for general lab sterilization with the aim of increasing the **productivity** of your laboratory.

Offering high capacity, together with the **optimization** of resources such as water, power and operating time.

An affordable and reliable solution you can count on for managing your laboratory **workload**.

Tuttnauer LabSci sterilizer series

Choosing the right steam autoclave depends on several considerations: the type of loads, frequency of use, available services and load volumes. The Tuttnauer LabSci autoclave series successfully meets the challenges posed by sterilization in laboratories and research institutes.

Tabletop 28 Liters - 85 Liters		LabSci 11L	LabSci 15L	LabSci 15+L	
Advantages	<ul style="list-style-type: none"> Easy to install Simple to operate Saves Space No Plumbing Required Fast Processing Complete drying Ideal for small-medium research labs 	✓	✓	✓	 Plastic

All of our sterilizers incorporate advanced technological features to provide safe and validated sterilization:

- All liquid capable sterilizers include temp probes preventing boil-over and ensuring proper sterilization
- Customizable cycles (could be saved on the system and not re-entered each time).
- R. PC. R software is available on all "LabSci" models.
